

Special education teachers

The Tennessee Education Association understands the challenges you face as a special education teacher. When educating our most vulnerable students, you face an additional set of challenges on top of those typically faced by educators.

When faced with the pages upon pages of regulations and policies for teaching students with special needs, it is important to belong to a professional association that will fight for the best interests of you and your students.

Don't wait another day, join your colleagues statewide in being a member of TEA!

Special Education Support

TEA supports special ed by:

- Organizing to advocate for special education students' rights and appropriate funding for special ed classrooms
- Providing effective employment-related support, representation and liability coverage
- Advocating for quality professional development opportunities
- Developing effective local and state leaders
- Promoting public education and public school employees in state legislature
- Keeping you informed through electronic and print media
- Providing access to exclusive, member-only financial services and insurance benefits
