## **Teacher Leadership Institute Fellowship**

The Tennessee Education Association, in partnership with NEA, is proud to offer the Teacher Leadership Institute (TLI) Fellowship. The TLI is a comprehensive effort to recruit, prepare, activate, and support teachers to shape and lead a transformed teaching profession.

### **Program Overview**

The Teacher Leadership Institute is a year-long (October, 2018 – August, 2019), cohort-based learning experience consisting of:

- Rigorous competency-based curriculum;
- Applied experience through a self-selected capstone project;
- Deep local and national community collaboration;
- Extensive coaching and support;
- Evidence-based portfolio documenting growth in the Teacher Leadership Competencies; and
- Professional development points.

### **Program Curriculum**

Overarching competencies – Eight competencies that all leaders utilize are at the heart of the curriculum during Term 1 of TLI. Fellows choose TWO of these competencies for deep study, practice, and reflection.

Diversity, Equity, and Cultural Competence competencies– Fellows infuse work throughout TLI with a deep study of Diversity, Equity, and Cultural Competence. Fellows choose one of the Diversity, Equity, and Cultural Competence Competencies for deeper study and reflection during Term 2.

Leadership Pathway competencies – Fellows choose a challenge/issue to address as a capstone project in Term 2. They select ONE of the following three Pathways for deeper study and reflection.

- *Instructional Leadership* – teacher leaders at the center of facilitating, supporting, and improving teaching and learning in their schools, districts, and beyond.
- *Policy Leadership* – teacher leaders creating, informing, and influencing policy at the school, local, state, and national levels;
- *Association Leadership* – teacher leaders that guide the association on its mission to advance the profession of teaching, the well-being of our students and the professional interests of educators.

### **Capstone Project and Portfolio**

The Capstone Project and Portfolio are the culmination of the TLI curriculum and experience. It is the opportunity for fellows to integrate the concepts and skills they have learned to address their selected leadership challenge and impact education stakeholders, policy, and/or practice.

The Capstone Project promotes exploration of personal leadership skills, problem-solving, collaboration, and self-reflection. Each fellow in the Teacher Leadership Institute will take part in a Capstone project individually or in collaboration with others involved in the Institute and will have the opportunity for a formative review of leadership growth via the individual submission of a Portfolio. The purpose of the Capstone Project and Portfolio is to demonstrate professional growth along the continuum of teacher leadership as captured by *the Teacher Leadership Competencies*. In addition, Fellows who complete the TLI Requirements and Capstone will receive a \$500 stipend.

### **Program's Impact**

At the completion of the year, Fellows will have gained new, unparalleled leadership expertise and experience. TLI Fellows will be uniquely prepared for leadership roles in their Association, in the policy-making arenas, and in their profession. TEA is proud to offer this growth opportunity through NEA, and we look forward to working with the 2018-2019 Fellows.

The TLI webpage can be found at: <http://www.teacherleadershipinstitute.org/>.
